

# West-wide Energy Corridor Programmatic EIS Scoping Comment Form

The Department of Energy (DOE), Bureau of Land Management (BLM), and the Forest Service (FS) invite you to participate in the scoping process for development of a programmatic environmental impact statement (PEIS). The PEIS will focus on the designation of a system of energy corridors for oil, gas, and hydrogen pipelines and for electricity transmission lines on lands administered by BLM and the FS in the western United States (excluding Alaska). The PEIS will address the possible amendment of individual land-use plans as they relate to energy corridor designations.

The Public Scoping period is open from September 28, 2005 until November 28, 2005. You can submit comments via the project web site <http://corridoreis.anl.gov> or by folding and mailing in this form (postage is required), or by mailing other materials to the address provided on the other side of this form. Comments can also be faxed to 1-202-586-1472.

**WITHHOLDING OF PERSONAL INFORMATION:** Commenters who wish their name or street address, except for the city or town, to be withheld from public view or from disclosure under the Freedom of Information Act, must check the "Withhold Name and Address" or the "Withhold Address Only" check box below. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety. Commenters who do not wish to have their name or address withheld, should print their name and return address on the other side of this mailing.

- My name and address are provided for the public record (see return address on other side)
- Withhold my name and address from the public record
- Withhold only my address from the public record

Name: \_\_\_\_\_

Comments:

As a joint owner of a cattle ranch some 20 miles south of the Wyoming - Colorado state line, & west of I-85/87, I take exception to the fact that you showed potential corridors on a site map at your Little America meeting in Cheyenne, which appear to run directly through our ranching lands. It seems to me that the government can establish corridors on Federal land, but cannot establish corridors on private lands, without a <sup>Federal</sup> takings action occurring. I oppose the establishment of a corridor across our ranch.
